2021 CAMP IN A BOX

Welcome!

We are excited to bring you 20 days of all “NEW” activities for 2021. Please remember the schedule and activities are just templates. Activities/projects can be modified to meet your individual child’s needs.

Schedules and instructions can be downloaded from:

<http://tiny.cc/CampInABox21>

or scan the barcode

Be creative! Have fun! Make Memories!

Many items are used for more than 1 activity/project. Make sure you use what you need and save the rest for the next project/activity (i.e. put leftover modeling clay in an airtight container).

Most items that are needed for activities/projects are included with your “box”. However, you will need some items from home this year. One activity called “The Inventors Challenge” is mostly based on recycled items found around the house. Please check your recycling bin before taking it out each week and try to keep these needed items in mind:

- **Plastic Grocery Bag**
- **Plastic Bottles (water, gatorade, etc)**
- **Large Plastic bottle/container (64 oz or larger)**
- **Empty aluminum can**
- **Empty “pop” cans or similar empty can**
- **Big containers to hold water for water play activities**
- **Misc. recycling (cardboard tubes, plastic lids, etc..)**

We hope your family enjoys Camp in a Box!
